SPRINT 1

Target Users (Digital Talent Management Platform)

Primary Users

User Type	Description	Goal
Students	People looking to showcase skills and get opportunities	Build profile, track tasks
Employees	Workers improving skills inside company	Learn new skills and track progress
HR Managers	Recruiters managing talent	Monitor employee skills
Admin	Platform managers	Manage users and data

The platform is designed for students, employees, HR managers, and administrators who want to manage skills, tasks, and talent development in one digital platform.

User Personas

Persona 1 – Student

Name: Sugumar M
Age: 22
Role: MCA Student

Goals

- Showcase skills
- Get internships
- Track learning tasks

Frustrations

- No single platform for skills
- Hard to track progress

Needs

- Easy dashboard
- Task tracking
- Profile showcase

Persona 2 – HR Manager

Name: Priya S
Age: 25
Role: HR Manager

Goals

- Manage employee skills
- Assign tasks
- Track performance

Frustrations

- Hard to track multiple employees
- No centralized system

Needs

- Analytics dashboard
- Employee skill tracking
- Task assignment system

Problem Statement

Many organizations and students lack a centralized platform to manage talent, track skills, and monitor performance.

Existing systems are often complex, fragmented, or difficult to use, which creates problems for both users and administrators.

Therefore, there is a need for a simple, intuitive Digital Talent Management Platform that helps users:

- Manage skills
- Track tasks
- Monitor performance
- Improve career growth

User Journey Map

Stage	**User Action**	**User Feeling**	**Opportunity**
Login	User logs into system	Curious	Simple login UI
Dashboard	Views tasks & progress	Interested	Clear dashboard
Task Page	Completes assigned task	Focused	Easy task tracking
Profile	Updates skills	Motivated	Skill portfolio
Progress	Tracks improvement	Happy	Visual progress charts

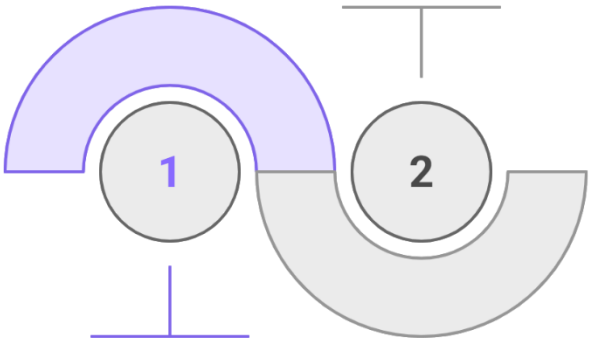
- Logout

Admin Flow



User Flow

- Start
- Login / Sign Up
- Dashboard
- View Tasks
- Complete Task
- Update Skills
- Track Progress
- Logout

Competitor Analysis

Platform	Strength	Weakness
LinkedIn	Professional network	Not skill tracking
Coursera	Learning platform	No talent management
Internal HR Tools	Employee tracking	Poor UX
